

Boost your engineering career and thrive

Be part of our new „Starter Excellence Program“
for Product Application Engineers

Boost your engineering career and thrive

We are constantly looking for new emerging talents who are fascinated to face the challenges of developing technology, market changes and individual customer demands together with us. The means are our investment in our talents. Targeted advancements like trainings and employee development programs offer our employees the best conditions to develop their professional and personal skills within our company.

„Starter Excellence Program“ for Product Applications Engineers in the sealing, fluid and antivibration technology

This newly developed 6 months starter program offers a profound entry into the company and imparts a deep understanding of the company, its values, the departments, the products and processes. This enables a very fast but extensive incorporation so that the new employee will get involved in the actual big projects alongside the senior engineering very quickly.

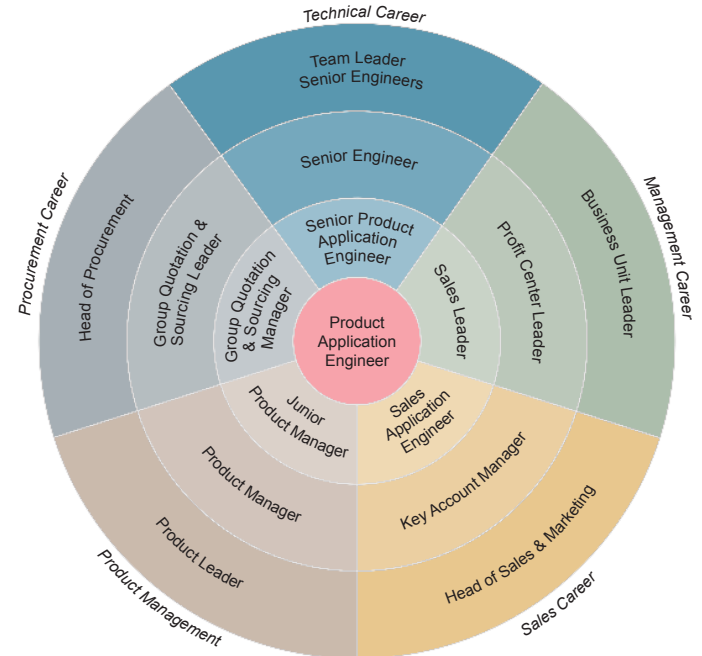

The „Starter Excellence Program“ comprises the following stages within the headquarters of Angst+Pfister in Zurich, Switzerland and Angst Pfister Advanced Technical Solutions in Bursa, Turkey:

- Various weeks at our production sites
- Various weeks at the Group Quotation & Sourcing Team
- Various weeks as Sales Agent
- Approximately one week at the CAD-Design Team
- Various weeks project work with the Senior Engineering

Afterwards the employee will start his work within one of our international business units for the current big projects. One of the first tasks will be to join the development of a market cultivation strategy.

A clear and transparent career structure allows our employees to set their targets and plan their individual career. Of course careers are also possible cross-departmental.

Your development opportunities

Two who thrive in their careers at Angst + Pfister

Andreas Gogl

Business Unit Leader
Angst + Pfister Austria

Andreas can look back on a remarkable career of meanwhile 14 years at Angst+Pfister. After completing his engineering studies at the Höheren Technischen Bundesanstalt Salzburg Andreas worked inter alia as Product Application Engineer before he joined Angst+Pfister in 2003. He started his Angst+Pfister career as Sales Application Engineer. Only half a year later he became Key Account Manager for Austria and another 3 years later Head of Marketing & Sales Austria and CEE. In February 2014 he took over the General Management of the Business Unit Austria and CEE.

During his career at Angst+Pfister Andreas inter alia managed numerous large-scale projects for Key Account customers like Liebherr or GE Jenbacher in Austria and also longterm projects worth millions for customers like Siemens Mobility.

Stefan Schwarzer

Profit Center Leader
Angst + Pfister Benelux

Stefan completed his apprenticeship as politechnician and holds a degree as certified engineer (HF engineer in company processes) with a Professional Bachelor in Business Process Engineering. In 2008 Stefan started his career at Angst+Pfister Switzerland as Product Application Engineer Sealing Technology and completed an Executive MBA in Service- and Strategic Management from 2010 to 2012. He became Internal Sales Leader Sealing Technology in 2011 and in November 2015 he took over the position as Sales Leader Angst+Pfister Benelux. Until today he is Profit Center Leader of our Sealing Technology Department Angst+Pfister Benelux .

During his career at Angst+Pfister of meanwhile 9 years Stefan managed diverse Key Account customers like EAO AG, Noventa AG and Franke Water Systems AG in Switzerland or Lely Industries N.V., Robert Bosch Packaging Technology B.V. and Meyn Food Processing Technology in the Netherlands.

Our company

The Angst+Pfister Group is a leading international technical manufacturer and service provider for high-end industrial components. As a supply and solutions partner for engineering plastics, sealing, fluid handling, drive, and antivibration technology as well as sensors, Angst+Pfister combines efficient logistics concepts with comprehensive product application engineering services.

Besides providing customer-specific parts, the Group offers a product range consisting of approximately 100 000 standard items.

What we offer

- The diversity of an innovative international company
- A deep and profound education "on the job" with the unique „Starter Excellence Program“ to shape your future

What we are looking for

Highly motivated technically-skilled sales talents

- Who just completed their engineering studies and graduated from university
- Or who already have 2 to 4 years of practical experience
